## OUR FOUNDER & VISIONARY

**SHRI  
DAYANAND  
AGARWAL JI**

### VISION

Our vision is to foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric thus making a strong impact on the global community through knowledge, understanding and attitude.

### MISSION

We aspire to nurture individual talents and abilities by empowering all children to help develop them into disciplined and dynamic leaders of the future. These children will go on to become active global citizens contributing richly to our nation and the world. Our responsibility is to raise them as independent, responsible, resourceful and successful individuals with high self-esteem and confidence.

## The Recent Changes Noted in Education

Education today is undergoing a quiet but powerful transformation. The way students learn, teachers teach, and schools function has changed significantly in recent years, driven by technology, evolving learner needs, and a renewed focus on purpose-driven education.

One of the most visible shifts is the move from content-heavy instruction to concept-based and competency-focused learning. Classrooms are no longer limited to textbooks. Experiential learning, project-based approaches, and interdisciplinary connections are helping students understand not just what to learn, but why and how to apply it in real life.

Technology has emerged as a strong enabler. Smart classrooms, digital assessments, and learning platforms have expanded access, personalised learning, and collaboration. At the same time, there is growing awareness that technology must support learning without replacing human connection. Balance, digital wellbeing, and ethical use are now central conversations in schools.

Another significant change is the emphasis on student wellbeing and life skills. Emotional intelligence, resilience, communication, and critical thinking are being recognised as essential outcomes of schooling. Education is increasingly viewed as a process of nurturing confident, compassionate, and responsible individuals.

Equally important is the evolving role of teachers and school leaders. They are no longer just instructors or administrators, but mentors, facilitators, and lifelong learners themselves.

These changes remind us that education is not static. It must continuously respond to the world our children will inherit. As schools adapt with clarity and care, we move closer to an education system that prepares learners not only for examinations, but for life.

## CBSE's New Wave of Reforms: Shaping Classrooms, Redefining Learning

In a significant shift aimed at transforming the Indian education landscape, the Central Board of Secondary Education (CBSE) has rolled out a series of progressive reforms that are reshaping how students learn and how teachers teach. Moving beyond rote memorization, these changes reflect a deeper alignment with the vision of the National Education Policy 2020 (NEP 2020), placing competency, conceptual clarity, and holistic development at the core of schooling.

### What's Changing in CBSE Classrooms?

The latest CBSE developments focus on a few key areas:

#### 1. Competency-Based Education

A greater proportion of exam questions are now application-based, testing understanding rather than recall. Students are expected to think critically, analyze situations, and apply concepts in real-life contexts.

#### 2. Emphasis on Theory Competency

CBSE is reinforcing the importance of independent performance in theory exams. With stricter expectations around achieving minimum qualifying marks separately in theory and internal assessments, students can no longer rely on internal marks to compensate for weak conceptual understanding.

#### 3. Skill-Based and Experiential Learning

Subjects are increasingly integrated with practical exposure, projects, and real-world applications. This aligns with CBSE's push toward multidisciplinary and skill-oriented education.

#### 4. Continuous and Holistic Assessment

Internal assessments are being restructured to be more meaningful, focusing on portfolios, subject enrichment, and periodic evaluations rather than just marks inflation.

### Impact on Students: From Passive Learners to Thinkers

For students, this shift is both challenging and empowering.

- **Deeper Learning:** Students must now understand concepts thoroughly, not just memorize answers.
- **Reduced Shortcut Culture:** The safety net of inflated internal marks is diminishing, pushing learners to take ownership of their academic growth.
- **Skill Development:** Critical thinking, problem-solving, and communication skills are becoming central to success.
- **Balanced Pressure:** While expectations are higher, the focus on application makes learning more meaningful and less mechanical.

- However, the transition phase may feel demanding, especially for students accustomed to traditional exam patterns. Schools must support them with structured guidance and practice.

## Impact on Teachers: Redefining the Role of Educators

Teachers are at the heart of this transformation—and the expectations from them have evolved significantly.

- **From Instructor to Facilitator:** Teachers are now guiding inquiry, discussion, and exploration rather than delivering one-way lectures.
- **Assessment Designers:** Creating competency-based questions and meaningful internal assessments requires deeper pedagogical understanding.
- **Continuous Upskilling:** Teachers must stay updated with CBSE guidelines, innovative teaching strategies, and assessment frameworks.
- **Accountability in Evaluation:** With increased scrutiny on internal assessments, teachers must ensure fairness, transparency, and authenticity.

This shift demands time, training, and mindset change—but it also elevates the profession, giving teachers a more impactful and intellectually engaging role.

## The Road Ahead: Challenges and Opportunities

While CBSE's reforms are visionary, their success depends on effective implementation at the school level.

### Challenges include:

- Bridging the gap between policy and classroom practice
- Training teachers at scale
- Supporting students during transition
- Ensuring consistency across schools

### Opportunities include:

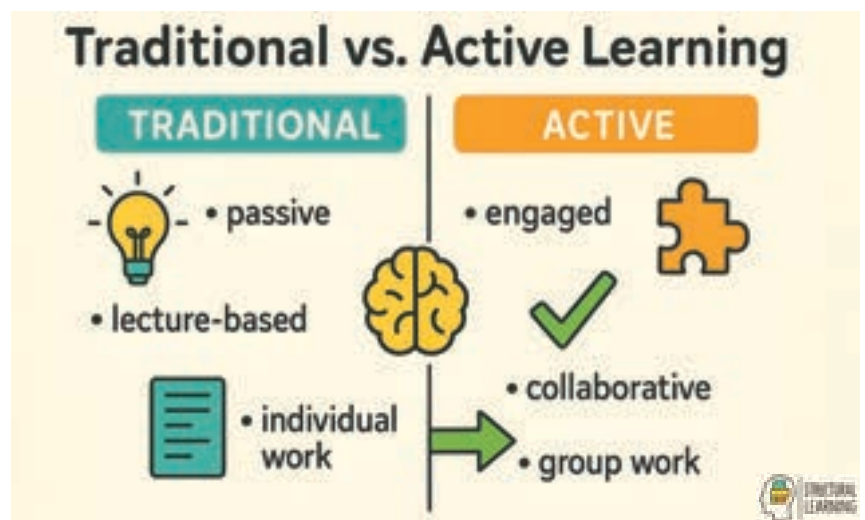

- Creating future-ready learners
- Building strong conceptual foundations
- Promoting equity through standardized expectations
- Elevating the quality of education nationwide

## Conclusion: A Paradigm Shift in Education

The evolving CBSE framework signals a decisive move toward meaningful education—where marks are not just numbers, but indicators of true understanding and capability. For students, it is a call to engage deeply with learning. For teachers, it is an invitation to innovate and inspire.

As schools adapt to this transformation, one thing is clear: education is no longer about how much students can remember, but how well they can think, apply, and grow.

**The CBSE classroom is changing—and with it, the future of learning in India.**

## Message from Principal, Edify School, Mahabubnagar

**Mrs. Veena Reddy Karnati**  
Principal,  
Edify School,  
Mahabubnagar

Education, to me, is not merely the transfer of information. It is the shaping of character, competence and consciousness. True education goes beyond textbooks and examinations. It nurtures values, builds confidence and prepares young minds to understand their role in society.

As an educator and school leader, I see myself first as a lifelong learner. My professional journey across academic planning, curriculum design, CBSE-aligned competency frameworks, assessment practices and holistic school development has been guided by one simple belief. Every child: deserves structured excellence supported by compassionate mentoring. When children feel supported, guided and respected, they begin to discover their true potential.

I strongly believe that schools must be built on strong systems, vibrant classrooms and values that are lived every day. My leadership approach blends clarity, discipline and empathy. Structure and planning bring direction to learning, while empathy brings meaning to it. A school flourishes

when teachers feel empowered, parents feel involved and students feel heard.

For me, thoughtful planning, teacher empowerment, parent partnership and student voice are the pillars of a healthy learning ecosystem. When educators collaborate and families become active partners in learning, children experience education as a shared journey rather than a one-sided process.

When learning becomes meaningful and connected to real life, students develop curiosity, confidence and a sense of responsibility. They learn to think independently, communicate effectively and contribute positively to society.

Personally, I stand for integrity, accountability, inclusiveness and purposeful growth. These principles guide every decision I make as an educator and leader. I believe that education must create individuals who are not only knowledgeable but also ethical and socially responsible.

These values resonate deeply with the philosophy of the Edify Group of Schools, which is committed to fostering excellence, innovation, character development and global citizenship. My personal vision aligns closely with this ethos of nurturing empowered learners who are ready to face the challenges of the future with confidence and compassion.

At **Edify School, Mahabubnagar**, our collective mission is clear. We strive to create a learning environment where roots are strong, wings are ready and every child is equipped to thrive globally while remaining grounded in Indian values. A school must be a place where children feel safe to explore ideas, ask questions, make mistakes and grow into thoughtful individuals.

We believe that when education combines academic excellence with strong values, it prepares students not just for careers but for meaningful lives. Our commitment is to nurture young minds who are confident thinkers, responsible citizens and compassionate human beings.

*As an educator, I firmly believe in the words of Nelson Mandela:*

**"Education is the most powerful weapon which you can use to change the world."**

## Message from Principal, Edify School, Nellore

At **Edify School, Nellore**, our vision is to nurture a vibrant community of learners who think progressively, innovate fearlessly, and lead meaningful change in the social, economic, and cultural fabric of society. We are committed to shaping global citizens who contribute with knowledge, empathy, and the right attitudes, making a positive difference in an ever-evolving world.

Our mission is to recognize and nurture the unique potential of every child, empowering them to grow into creative, disciplined, and dynamic leaders of tomorrow. We strive to develop individuals who are independent in thought, responsible in action, resourceful in approach, and resilient in the face of challenges. By fostering strong self-esteem and confidence, we prepare our students to become active contributors to both the nation and the global community.

**Mrs. Varsha Ashok Rathod**  
Principal,  
Edify School, Nellore

At the core of our educational philosophy lies the **3C framework – Character; Competence; and Content**. We believe that true education is a balanced blend of values, skills, and knowledge. Character builds integrity and empathy, Competence enhances critical thinking and life skills, and Content ensures academic excellence. This integrated approach helps our learners not only succeed academically but also thrive as responsible and capable individuals.

At **Edify School, Nellore**, education goes beyond academics. It is about inspiring curiosity, encouraging innovation, and empowering young minds to explore their fullest potential. We aim to create a learning environment that transforms students into confident, compassionate, and future-ready individuals.

**"Education is not preparation for life; education is life itself."**

**-- John Dewey**

## Message from Principal, Edify School, Y N Hosakote

**Salman H.**  
(MA, B.Ed)  
**Principal,**  
**Edify School,**  
**Y N Hosakote**

Welcome to Edify Y N Hosakote, a vibrant learning community dedicated to academic excellence and the holistic development of every learner.

At our institution, education is not confined to textbooks. It is a meaningful journey where knowledge blends with values, and young minds are nurtured to evolve into responsible, confident, and compassionate global citizens. We strive to create an environment that inspires curiosity, encourages innovation, and builds strong character.

Our approach is deeply rooted in the philosophy of the 3C Curriculum – Character; Competence; and Content. We believe that true education must shape not only what students know, but who they become. While Content ensures strong academic foundations, Competence equips learners with critical thinking, problem-solving, and life skills, and Character instills integrity, empathy, and a sense of responsibility.

At Edify Y N Hosakote, we provide a safe, inclusive, and stimulating environment where every child is encouraged to explore their potential and pursue excellence across academics, sports, and co-curricular domains. Our dedicated educators are committed to personalized learning, ensuring that each student receives the guidance and opportunities needed to thrive.

We strongly value the partnership between school and parents. Together, we can create a nurturing ecosystem that empowers our children to face future challenges with confidence, resilience, and a lifelong love for learning.

Let us work hand in hand to inspire and shape a generation that leads with knowledge, values, and purpose.

***“Education is the manifestation of the perfection already in man.”***

### A Teacher's Reflection: Living the Vision and Mission of My School

A school is not just a workplace—it is a living, breathing space where young minds are shaped and futures are built. Every day that I walk into my school, I am reminded of the powerful vision and mission that guide everything we do. These are not just words written on paper; they are values that we see in action in our classrooms, corridors, and conversations.

Our school's vision is to nurture confident, compassionate, and competent individuals who are prepared to face the challenges of the future. This vision resonates deeply with me because it goes beyond academic excellence. It focuses on the holistic development of every child—intellectual, emotional, social, and ethical. As a teacher, I feel proud to be part of a system that values not just what students learn, but who they become.

The mission of our school reflects a commitment to providing meaningful learning experiences that foster curiosity, creativity, and critical thinking. It encourages us as educators to move beyond traditional teaching methods and adopt approaches that engage students actively. Whether it is through inquiry-based learning, collaborative activities, or real-life problem solving, we are constantly striving to make learning relevant and impactful.

What I particularly appreciate is how our mission emphasizes the development of character alongside competence. In today's fast-changing world, knowledge alone is not enough. Our students are guided to become responsible citizens, empathetic individuals, and ethical decision-makers. This alignment with values makes teaching here not just a profession, but a purpose.

I love my school because it trusts its teachers. We are given the freedom to innovate, to experiment, and to grow professionally. There is a culture of collaboration where ideas are shared openly, and every voice is valued. The leadership supports us, challenges us, and inspires us to give our best.

Most importantly, I love the connection we build with our students. Seeing their curiosity, their questions, their small victories, and their growth is incredibly fulfilling. Every child brings a unique spark, and our school ensures that each spark is nurtured and celebrated.

In essence, my school is a place where vision turns into action and mission translates into meaningful impact. It is a community that believes in learning with purpose and teaching with heart. Being a part of this journey is something I truly cherish every single day.

## Mentee Speak

MySchool EDIFY WORLD SCHOOL.

I like my school very much. My school is a happy and beautiful place where I learn new things every day. My teachers are kind, caring, and always help me understand my lessons in a fun way. I enjoy studying subjects like English, Maths, and Science because they help me grow smarter.

I also love taking part in sports and games. I enjoy playing table tennis, chess, badminton, and cricket with my friends. These activities keep me active, healthy, and teach me teamwork and discipline. Playing chess also helps me think better and improve my concentration. My school has a big playground where we play and have fun during recess. It also has a nice library with many interesting books that I love to read. I feel safe, happy, and excited when I come to school every day. I am proud of my school because it helps me learn, play, and become a better person. I truly love my school.

## Message from Director, DRSWS, Vanasthalipuram

**Chandramouli**  
Director  
DRSWS  
Vanasthalipuram

With over 20 years of experience in the education sector, I have witnessed the evolving needs of learners and the transformation of schooling in a rapidly changing world. At DRSWS, we are committed to creating a learning environment where global standards of education blend seamlessly with strong values, innovation, and purposeful learning. Our students are encouraged to grow as confident learners, critical thinkers, and compassionate leaders through academic excellence, technology-driven education, sports, arts, and experiential opportunities. We believe education goes beyond academics—it is about nurturing character, creativity, resilience, and leadership, preparing students to thrive globally while making meaningful contributions to society.

**NOW IN**

**VANASTHALIPURAM**

## Message from Director, Edify School, Nellore

Education today is not a fixed system—it is a continuous challenge to grow, evolve, and innovate. In a rapidly changing world, the real opportunity lies in moving beyond traditional methods and embracing experiential, meaningful, and future-ready learning. The challenge before us is clear - do we ensure that every child not only learns, but truly understands, applies, and thrives. We address this by creating learning environments in which:

- Students explore instead of memorising
- They question instead of accepting

Classrooms are designed as dynamic spaces where curiosity is encouraged, ideas are tested, and learning connects meaningfully with real life. This approach helps students become independent thinkers, problem solvers, and confident learners. Another major challenge is achieving the right balance between academic excellence and holistic development. Success today goes beyond marks—it includes resilience, teamwork, discipline, and well-being. Through structured sports and physical programmes, students develop both strength of mind and body, building habits that last a lifetime. Communication remains a key area of focus. Continuous efforts are made to provide platforms where every child can express ideas with clarity and confidence—developing strong communication and presentation skills essential for the future. A significant step forward in this journey is the association with MDN Edify Education, Hyderabad. This collaboration strengthens the learning ecosystem by bringing:

- Proven academic frameworks
- Innovative pedagogical practices
- Robust teacher training and leadership development
- A globally aligned yet value-based approach to education

With this support, the challenge evolves into a larger opportunity—to build a future-focused environment where academic rigor, experiential learning, and character development come together seamlessly. The vision is to nurture leaders, thinkers, and compassionate citizens who are prepared not just for exams, but for life. This journey, strengthened through collaboration and clear purpose, continues as a shared commitment to growth, discovery, and excellence—preparing every child to step into the future with confidence, competence, and integrity.

The vision is to nurture leaders, thinkers, and compassionate citizens who are prepared not just for exams, but for life. This journey, strengthened through collaboration and clear purpose, continues as a shared commitment to growth, discovery, and excellence—preparing every child to step into the future with confidence, competence, and integrity.

**Mr. K. Dinesh Kumar Reddy**  
Director  
Edify School  
Nellore

## *Message from Chairman, Edify School, Mahabubnagar*

Mr. Raghavendra Reddy  
Chairman  
Edify School, Mahabubnagar

We are delighted to partner with MDN Edify Education in establishing a new branch at Mahabubnagar—an initiative driven by a shared vision to redefine the purpose of education. This collaboration reflects a deeper commitment: to move beyond conventional learning and create institutions that shape responsible, value-driven individuals prepared for an evolving world. The focus is not only on academic readiness, but on nurturing character, purpose, and a strong sense of identity. Our vision is to build schools that seamlessly integrate global academic standards with the enduring strength of Indian values and ethics. These campuses will serve as dynamic learning environments where students develop into confident global citizens while staying rooted in culture, discipline, and integrity. The upcoming institution will emphasize holistic development through future-ready learning ecosystems, supported by

innovative pedagogy and a strong foundation in character education. Equal importance will be given to cultivating:

- Critical thinking and problem-solving
- Creativity and innovation
- Empathy and emotional intelligence
- Leadership and decision-making skills.

The promoters' vision, strategic direction, and steadfast commitment to excellence will play a vital role in shaping this institution into a center of educational distinction. With a strong foundation built on trust, collaboration, and shared purpose, the Edify School at Mahabubnagar is poised to emerge as a benchmark for balanced, progressive education. As we embark on this journey together, the focus remains clear—to create schools that inspire, empower, and transform young minds, preparing them not just for careers, but for meaningful and impactful lives. "Education is not merely about achieving success, but about nurturing compassionate, capable, and confident individuals.

## Message from Chairman, Edify World School, Bhimavaram

At the heart of every progressive society lies quality education. To me, education is not merely the acquisition of knowledge—it is a transformative journey that shapes character, nurtures confidence, and prepares young minds to lead with purpose in an ever-evolving world. This belief has been the cornerstone of our journey in the education sector for over two decades. The establishment of Edify World School, Bhimavaram, commencing from the Academic Year 2026–27, marks a significant step forward in our commitment to delivering world-class education. This institution embodies our vision of integrating global academic standards with strong foundational values, ensuring holistic development for every learner. Edify World School Bhimavaram builds upon the legacy of MDN Edify Education focusing on progressive and international outlook. As a CBSE-affiliated institution, the school adopts the 3C Curriculum (Character, Content, Competence), designed by the academic experts at MDN Edify Education. Drawing from the best practices of CBSE, IGCSE, and IB frameworks, the curriculum emphasises inquiry-based learning, experiential pedagogy, research orientation, and real-world application. Our goal is to nurture confident learners, responsible citizens, and future-ready individuals. Aligned with the Edify philosophy, "Leading Young India," we are committed to providing excellence across curriculum, infrastructure, faculty, and student support systems. With a team of dedicated educators, trained sports professionals, and a nurturing environment, we strive to empower every child to realise their full potential and contribute meaningfully to society. I extend a warm invitation to parents and students to be a part of Edify World School, Bhimavaram, as we work together to lay a strong foundation for a successful, responsible, and fulfilling future.

**Mr. Toleti Ajiji Babu**  
Chairman  
Edify World School  
Bhimavaram

## Message from Principal, Edify World School, Walajapet

Warm Greetings to the Edify Family,

It gives me immense pleasure to reflect on a year filled with growth, enthusiasm, and meaningful learning experiences at Edify World School, Walajapet.

At Edify, we believe that education extends beyond textbooks. Our focus is on nurturing curious minds, encouraging critical thinking, and enabling students to connect classroom learning with real-life situations. Through a balanced approach that integrates academics, values, and co-curricular experiences, we strive to develop confident, compassionate, and responsible individuals.

Our commitment to holistic development is reflected in every aspect of school life—from academic excellence and global exposure to sports, leadership opportunities, and value-driven initiatives.

As we continue this journey, we remain dedicated to creating an environment where every child feels inspired to learn, grow, and excel.

Thank you for your continued trust and support.

**Mrs. K. S. Sweatha**  
Principal  
Edify World School  
Walajapet

## MDN Edify: A Remarkable Year at a Glance - 2025-26

The past year has been an extraordinary chapter in the journey of MDN Edify, filled with milestones, celebrations, innovation, and collective achievements. It has been a year that reflected the organisation's unwavering commitment to quality education, leadership development, student excellence, creativity, and technological advancement. Every event and initiative undertaken during the year reinforced the vision of creating future-ready learners and empowered educational communities.

### Celebrating the Backbone of Education –Facilitators Appreciation Event

Teachers are the heart of every institution, and recognising their efforts is essential to building a strong educational culture. The Facilitators Appreciation Event stood as one of the most emotional and inspiring moments of the year. It was a platform dedicated to honouring educators who continuously go beyond classrooms to shape young minds, nurture confidence, and inspire lifelong learning.

Facilitators from various campuses were applauded for their dedication, innovation in teaching practices, and their role in creating meaningful learning experiences. The event served as a reminder that behind every successful student stands a committed teacher.

### Strengthening Systems –Admin Conclave “ Conflux 2025 ”

The Admin Conclave brought together administrative leaders and management teams from across the Edify network. Since efficient administration forms the backbone of successful schools, this conclave focused on strengthening systems, streamlining operations, and sharing best practices.

Discussions centred around institutional growth, operational excellence, policy implementation, resource management, and creating more efficient school ecosystems. It also became a valuable networking opportunity where teams exchanged ideas and strategies for better performance and productivity.

## Encouraging Literary Excellence –EDI Lit

Language and expression are essential life skills, and EDI Lit became a celebration of creativity, communication, and literary talent. Students from different schools participated enthusiastically in competitions and activities such as debates, storytelling, poetry recitation, creative writing, public speaking, and presentations.

The event provided students with an opportunity to build confidence, showcase originality, and develop communication competencies that are vital for future success. EDI Lit truly highlighted the power of words and ideas.

## Celebration of Talent –Musical Mystery

Adding sparkle and excitement to the year was the much-awaited Musical Mystery, an event that blended entertainment, creativity, and student talent. The programme created a vibrant atmosphere where music, performance, and imagination came together in a memorable celebration.

Students showcased their confidence, stage presence, rhythm, and artistic expression through captivating performances. Musical Mystery highlighted the importance of performing arts in education and reinforced Edify' belief in nurturing talent beyond academics.

## Building Champions –EDI Sports at Tirupati

Sports play a significant role in holistic development, teaching discipline, teamwork, perseverance, and resilience. The EDI Sports Meet held at Tirupati was a grand celebration of athletic spirit and competitive excellence.

Students from various campuses participated in multiple sporting events, demonstrating physical fitness, determination, and sportsmanship. The energy, enthusiasm, and camaraderie witnessed during the event made it one of the most vibrant highlights of the year.

The event reaffirmed the Edify belief that education extends beyond academics and that sports are essential in shaping balanced individuals.

## Inspiring Leadership –Principal Conclave at Dubai “ Confluence 2025 ”

One of the grandest highlights of the year was the Principal Conclave held in Dubai. Bringing together school heads, leaders, and visionaries in an international setting, the conclave focused on educational leadership, innovation, and strategic planning.

Principals engaged in thought-provoking sessions on modern pedagogy, global educational practices, school transformation, and leadership in changing times. The conclave not only enhanced professional growth but also strengthened the shared mission of delivering excellence across all Edify institutions.

Hosting the conclave in Dubai symbolised the expanding global outlook of MDN Edify Education and its readiness to benchmark itself with world-class educational standards.

## Digital Milestone – Launch of Student App “Edifier” at Dubai

Technology integration was one of the defining achievements of the year. During the Confluence in Dubai, the student-focused app “**Edifier**” was officially launched.

This innovative platform was designed to enhance student engagement, improve access to learning resources, streamline communication, and create a connected educational experience. It represented Edify's commitment to combining education with smart technology for the benefit of modern learners.

## Connectivity and Convenience – Launch of Edify Mobile App

The launch of the Edify Mobile App further strengthened the digital ecosystem of the organisation. Designed for students, parents, teachers, and administrators, the app made communication smoother, updates faster, and information more accessible.

## Showcasing Academic Brilliance – EDIMATH Olympiad

Academic excellence remained central to the Edify mission through the successful conduct of the EDIMATH Olympiad. This platform challenged students to test their knowledge, sharpen analytical thinking, and compete at higher standards of academic performance.

Students participated across Edify Schools, displaying intellectual curiosity and a strong competitive spirit. The Olympiad encouraged students to move beyond textbook learning and develop deeper conceptual understanding.

## Recognising Excellence – EdiAwards 2025

The prestigious EdiAwards 2025 marked another proud milestone of the year. These awards celebrated schools, for their exceptional performance, innovation and excellence.

Recognising achievements not only honours success but also motivates others to strive for higher standards. The awards ceremony reflected the culture of appreciation and aspiration deeply rooted within the Edify family.

## A Year of Progress and Purpose

Looking back, this year was far more than a series of events—it was a journey of transformation, recognition, learning, creativity, and unity. From leadership conclaves to student competitions, from appreciation ceremonies to digital innovation, and from literary showcases to musical celebrations, every initiative contributed meaningfully to the growth of the organisation.

MDN Edify Education has once again demonstrated that great institutions are built not only through infrastructure or academics, but through people, vision, values, talent, and continuous innovation.

## Looking Ahead

As the organisation steps into another promising year, the achievements of this year will serve as a strong foundation for even greater success ahead. With committed educators, inspired leaders, talented students, and progressive systems, the future of MDN Edify Education shines brighter than ever.

Indeed, it has been a remarkable year of excellence, achievement, inspiration, and celebration — truly a year to cherish and remember.
